### Field trip to camp ridly

Well, it was in the morning when we left to go on the field trip. We couldn't bring your phones so we only had like mp3 or something so we can listen to music while we were on our way to our field trip. When we got there we went to this place where everyone had to sit down so the people from the camp can introduce themselves. After they introduce themselves the teachers separated us from boys to girl and they told us to go to our cabins. When my friends and I went to the cabin we chose our rooms and beds. We went to a room and they had enough be for all of us so that was a good thing.

While we tried to get our stuff out from our luggage the teachers told us to come outside so we can get our day started. So when we finish getting our stuff ready we all went outside and the people from the camp showed us around. We saw that they had a basketball court, other buildings and they also had a cafeteria so they served us good food. After they showed us around they gave us free time

so they took the balls out and other thing that we can play with. My friends and I grabbed the basketballs and started playing basketball together. After a while, it got dark so they told us that we had to go inside because we had a big day tomorrow. So we all put things up and went inside our cabins.

While we were inside our cabins we were getting out our sleeping bags and pillows so we can get ready for bed. After I got my bed ready I went to take a shower so I can go to bed and sleep comfortably. After a while, our teacher came into the room and told us to sleep and he turned off the lights. We weren't even sleepy so we started talking to each other and telling scary stories until we all went to sleep. We didn't even know the time since we didn't have anything to check so we didn't know how late it was. So after a while I knocked out I don't know about the rest but I got tired so I went to sleep.

We woke up the next morning because our teacher woke us up but I didn't even want to get up from the bed because I was tired and it was kind of early. So we all went outside and it was kind of chilly outside but the owners from the camp started talking to us about what were we going to do today. When they finished talking they separated us into groups. My group and I went to this building and it looked like a little Classroom and this other adult came in and I

think he also worked there so he told us to sit down. While we were sitting down he started to tell us about clouds and their differences; then they took paper and markers out and they told us to draw the different clouds and we did.

After that, we went somewhere else but I don't remember what we did after that but we did some other activity. So after a while they told us it was time to eat so we all met up in the cafeteria, they gave us some good burgers and fries they were better than what they gave at school. So after we ate they gave us free time again so they took everything out and like the other day me and my friends got the basketball and started playing basketball again. It got dark and our teachers told us to go back inside so we did and I did the same thing get my bed ready and went to take a shower and this time I was really tired so I went to sleep early.

So the next morning came up and our teachers told us to go outside and we did and they gave us breakfast and after we ate breakfast they took us to the zip line so we did for a while. So our teachers told us to go back inside our cabin while they plan what to do next so we all went inside. While we were inside my friends kept doing and saying gay stuff so we said next person who says some gay going to get slap by everyone in this room and if the person doesn't let us slap them

then we jump that person. So one of my friends did something gay and we all went to slap him and he didn't let us so we tried jumping him. When we tried jumping him he got on someone and started fighting one of my other friends and my other friends slammed him and started fighting him back and we all ran and separated the fight. So after we separated the fight I went to the bathroom and someone asked what happen cause they heard the noise and I explained what happen and the teacher was behind me and caught us and we got in trouble so he made us sit down the whole time the other kids played.

After they played we went inside the cafeteria to eat lunch and when we finish the teachers told us to gather around because they were going to take out different animals and bugs. So we waited for a little and they took out a big snake and a big spider and they picked some kids to go to the front to touch the snake and to put the spider in their head. Instead of going to the front I went to the back cause I didn't want to get close to the big snake, not going to lie I was kind of scared of the snake and the big spider. They took a couple more bugs and animals I just don't remember what they were. It got late so they told us to go inside to get our stuff ready because it was our last day today and we had to leave tomorrow morning.

So we went inside and I got my stuff ready and took a shower and after that, I went to bed and waited till I knocked out. So it was morning and the teacher told us to get out stuff and put it outside cause they were going to put it in the back of the bus. While they were doing that we dismissed ourselves to the owners to the camp and told them we had a lot of fun and we would be glad to see them again. So after we did that we all got on the bus and left back home.
