The Time, My Family Found Out I Was Gay:

My life was perfect, nothing was wrong with it and I was living my good life. Until I met this boy and certain things changed about me. First, he started off as a good person, he was nice, honest, and kind to me and me and I liked those things about him. As time goes by, I started to feel things for him and at the time I didn't know it was a problem to be with or have feelings for him until later.

We've been friends for like 3 months and we been spending time with each other like every day. One day me and him were outside walking, talking to each other and the next thing he say caught me off guard he said "do you like me", and without thinking what he meant I said "yes" and he was "like let me rephrase that" then he said " do you want to go out with me", I was scared to answer him but I said "yes", but I told him "we have to keep it on the low" and he agreed.

We've been dating for almost 3 weeks now and it was kind of hard trying to keep our relationship a secret. My dad and sibling's kept irritating me about "how come you not dating a girl yet", they think I like girls, but they don't know I like boys.

It was the day of my birthday and I was at school; my friends were telling me "happy birthday" and I had turned 13. My boyfriend came up to me telling me "happy birthday baby" and he gave me a gift. I opened it and it was a necklace saying, "forever my love" and it was a split necklace, so he got one saying "forever" and I got the other piece saying, "my love". A

couple of minutes later he asked me “what are you doing for your birthday”, and I said, “I’m having a party with my family, your welcome to come if you want” and he said, “alright bet”.

I had just got off the bus walking home, and I got a text message from Demarrius saying “what time do you want me to come”, I said “right now if you want” he texted back with an “ok”. My party was finna start but Demarrius wasn’t here yet, so I got sad, but I wasn’t finna let that stop me from having a great time. As the party progressed on Demarrius texted me saying “my mother knows about us”, then I got scared because she knows where I stay, and she can come here anytime and tell my dad.

The party ended about an hour ago so its 11 something right now, and the doorbell rang, and my suspicion came true. Demarrius and his mom was here, and my dad called my name to come to the living room. I feared how my dad is going to react, when he finds out I’m gay.

Demarrius mom told my dad what's been going on with me and her son, my dad kept looking at me with disgust and hate, it was hurting me because I kind of know what's going to happen next. After she was done talking, my dad came up to me and I kept backing up until I was backed up against the wall. My dad had punched me in my stomach, saying “you disgust me” in an angry tone, I heard Demarrius crying, telling my dad to “stop” while he was being held back by his mom and dad.

The next day he called my mom, telling her to come get me, I was sad that he was kicking me out but that’s what I expected from him. Moments later my mom pulled up to my dad’s house, she came inside, walked pass my dad while he was greeting her, not saying a word to him, she came to my room, got my bags and told me “let’s go Kiondre”.

I was shocked that I had to leave so early, it was like 11 in the morning, and my siblings were at school, so I didn't get a chance to say goodbye to them, nor Demarrius. I was sad because this was the last time, I would see my dad, and especially Demarrius.

A couple of months later, I was upstairs playing the game and I heard my mom calling my name, so I went downstairs to see what she wanted, she had told me "my dad went to jail", I was kind of sad because we left off on bad terms.
